- Marketing

### Education

**Software Engineering** | 2024 -  
2025  
TripleTen

### Work Experience

**| 2024 - Present**  
***Outlier AI - Software Engineer***

As a software engineer at Outlier AI, I collaborate with a remote team of skilled professionals to rigorously test, evaluate, grade and refine large language models to ensure their accuracy, reliability and overall performance.

**| 2024 - Present**  
***Codess - Software Engineer***

As a Software Engineer running my own business, I partner with businesses to deliver tailored technical solutions across diverse projects. Whether working independently or collaboratively with a team, I design, develop and implement software that meets clients' unique needs.

### Expanding Skills

- React
- Next.js
- SQL
